Contributing authors	
Due date	29.04.2024
Delivery date	29.04.2024

Document history	
Creation Date	26.04.2024
Version	V1
Version Date	
Status	<input type="checkbox"/> Draft <input checked="" type="checkbox"/> WP lead approved <input type="checkbox"/> Executive Board approved <input checked="" type="checkbox"/> Coordinator approved
Status date	30.04.2024

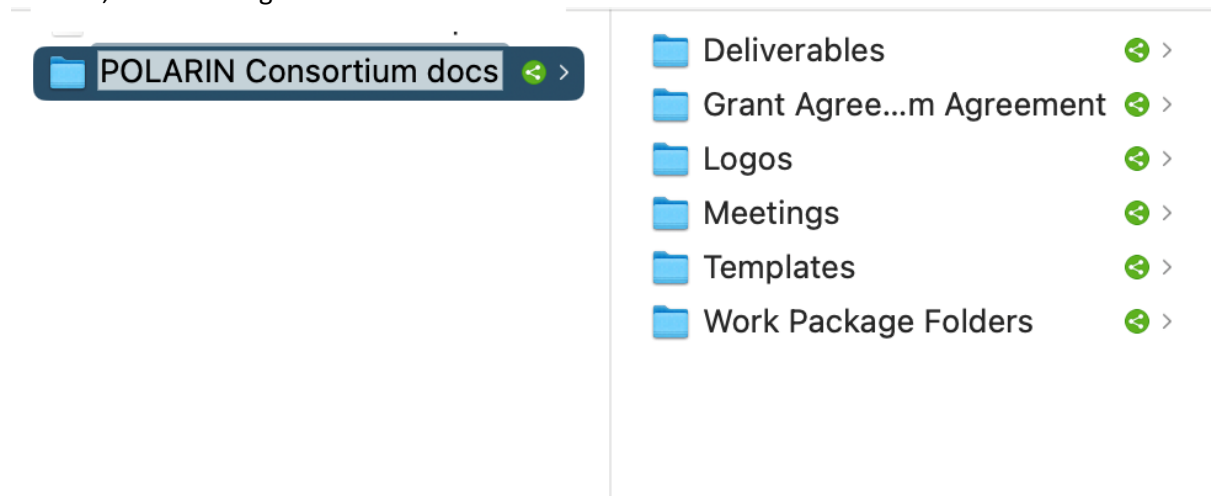

SUMMARY

Two systems for sharing POLARIN documentation and facilitate collaborative work among the consortium partners has been implemented at the onset of the project: Nextcloud and an intranet section in the project's website.

1. Nextcloud.

Nextcloud offers a secure environment for data storage. It allows an easy access to relevant information by all partners, independently of the operating system they use.

To date, the following folders and documents are stored:

Deliverables

This folder will store accomplished deliverables until the end of the project.

Grant Agreement and Consortium Agreement

Latest agreements signed.

Logos

It includes all versions of POLARIN logos, including the logo animations and the partners logos.

Meetings

It includes the latest information on meetings (agenda, minutes, presentations), to date the Kick off Meeting of POLARIN.

Templates

Latest versions of the POLARIN ppt and deliverable templates.

Work package folders

Each Work Package has its own folder to facilitate collaborative work.

2. Members only area in the POLARIN website

The POLARIN website (www.eu-polarin.eu) is currently in development, together with its "Members Only". It mirrors the contents of the Nextcloud folder as a repository for POLARIN documentation, except for the collaborative Work Package Folders that are only be available in Nextcloud.

The internal are will provide an easy to reach platform for internal news and updates.
