

Logistic Evaluation Procedure

Research Infrastructure Decision

Consultation and collaboration with the RI:

Before application:

- Contact in advance with your RI
- Define clearly and check with RI operator the feasibility of your field work
- Define any support you need from the RI
- Adapt your research + field work + Contingency plan

TA vs RI - Communication

Preparation to Access implementation

Done by the User Group in consultation and collaboration with the RI:

Before implementation:

- Check days and date of arrival to RI/port/gateway (travel, accommodation, etc.)
- Medical check (Antarctic special)
- Insurance, permits, training (Antarctic special)
- Cargo shipment (Custom clearance)
- Science plan and RI support

After implementation:

- Samples shipment (permits, shipment, custom clearance)
- Cargo shipment
